

Pharmacy First Fill Program

- First Fill Program – A prescription drug card program designed to ensure that the injured worker receives their initial medication as soon as possible after sustaining an injury, even before the claim is accepted as compensable. This program provides access to our national network of over 60,000 pharmacies with NO out-of-pocket costs for the injured worker. There is an \$85 cost limit and a 10 day supply limit and the temporary card expires 30 days after the injury.
- Once a claim is accepted as compensable, generally within 7-14 days, a personalized prescription card will be mailed directly to eligible claimants allowing full refills of covered prescriptions.
- Our PBM's will absorb the cost of the first fill prescription if the claim is later denied or the medications are unrelated to the injury. OneBeacon covers the costs of the first fill prescriptions for injury related medications that are medically necessary on claims that are ultimately accepted as compensable.
 - For CA, CO, CT, GA, MA, MN, NJ, NY, PA & VA, our Pharmacy Benefit Manager is TMESYS. To locate participating pharmacies, please visit www.tmesys.com
 - For all other States, the Pharmacy Benefit Manager is FirstScript. To locate participating pharmacies, please visit www.firstscript.com/pharmacy
